

Learning Pathways

At Discovery we believe every child is unique and deserves a bespoke and ambitious curriculum offer. Each term we set a series of targets in each subject area. These are hand-selected for each individual based on their strengths, passions and areas for development. These targets allow us to track and celebrate the progress our children make day by day.

Our pathways allow us 'zoom out' and consider our longer-term goals for our young people.

<p>Pathway 1</p> <p>Your child needs a curriculum that is focused on academic study whilst continuing to meet your child's additional needs.</p>	<p>Qualifications:</p> <p>GCSEs</p> <p>BTECs</p>	<p>Next Steps to explore for Post 16:</p> <p>Becton School - Becton & Silverdale Post-16 Specialist Hub</p>
<p>Pathway 2</p> <p>Your child needs a curriculum that is focused on academic study, whilst also incorporating building skills for life and preparing your child for adulthood.</p>	<p>Qualifications:</p> <p>Functional Skills</p> <p>BTECs</p> <p>Entry Levels</p>	<p>Next Steps to explore for Post 16:</p> <p>Kenwood Academy</p> <p>The Sheffield College</p> <p>Nacro</p> <p>Rotherham College</p>
<p>Pathway 3</p> <p>Your child needs a curriculum that is focused on building skills for life and preparing your child for adulthood.</p>	<p>Qualifications:</p> <p>Entry Levels</p>	<p>Next Steps to explore for Post 16:</p> <p>Talbot Specialist School</p> <p>Bents Green</p> <p>Landmarks</p>

We recommend exploring these pathways and next steps with your young person so that they know what to expect for their future.

If you would like further support exploring options for Post 16 you can contact Jenny Hallam, our careers advisor, jhallam@nexusmat.org or Mr Pleass apleass@nexusmat.org.
